

TELL
CONGRESS TO
**SAVE OUR
RACECARS!**

★
ACT NOW!

The future of motorsports remains in jeopardy until Congress passes the RPM Act (Recognizing the Protection of Motorsports Act). While the RPM Act is off to a strong start in the 2021-2022 session of Congress, your elected officials in Washington still need to hear from you!

The RPM Act

If enacted into law, the RPM Act will provide racers and the motorsports industry with certainty that it is legal to manufacture, distribute, sell, and install race parts used on a vehicle that is converted for race-use only. Help pass the RPM Act and save our racecars!
