# COMMUNITY FOR A CAUSE

SEMA Cares provides a forum from which our association members can act as a collective influence toward making a positive impact beyond the automotive community.

We are able to significantly improve the lives of many who need it through our support of the great work done by the Austin Hatcher Foundation for pediatric cancer, Childhelp prevention and treatment of child abuse, and the Victory Junction camp for children with serious medical conditions and serious illnesses.

Established in 2007, SEMA Cares steers the same dedication and passion our membership has for automotive to the kind care of children and others in need.
